

# Account Managers

Our Account Managers are here to ensure that you (our clients) are getting the most out of the Argus system.

We'll work with you to optimise your fleet

One of the most valuable features that we offer is our account managers – they are the designated account manager and trusted advisor to all customers that are on our MIDI and OMNI plans. Not only will they ensure that you are getting the most out of the Argus Tracking system, but they will also run regular upskill sessions and keep you in the loop about new products and features. They bring the knowledge, expertise and reporting directly to you so you can spend more time focusing on your business.

## Features

- A designated Account Manager that knows your fleet and how it operates.
- Tailored onboarding meetings & upskill sessions to learn how to use the Argus platform to better optimise your fleet.
- Quarterly meetings (face-to-face or virtual) to provide information on new features, account insight & ROI.
- Support where and when you need it most.

## Benefits

- One-on-one support from an expert whenever you need it.
- Access to a customised Account Manager report to view fleet usage, risk & carbon emissions.
- Gain the skills & knowledge needed to get the most out of the Argus platform.
- Learn about how we can assist in different industries, with common problems & new legislation.

Available on our MIDI & OMNI plans. Want to upgrade? Chat with our friendly team today to select the plan best suited to your fleet.
